Examiner's amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an E-mail interview with Mr. Kia Silverbrook on Jan. 05 2005.

Please cancel claims 1-5 and 8-10.

Allowable Subject Matter

2. Claims 6-7 and 11 are allowed.

Claims 6 and 11 are independent claims.

The following is an examiner's statement of reasons for allowance:

As to claim 6, the present invention from the application discloses a print engine/controller configured to be coupled with **other print engine/controllers** to drive a **single ink-drop printhead**, comprising a printhead interface to output the composite strip to a printhead in which "the printhead interface including a multi-segment printhead interface outputting printhead formatted data, and a synchronization signal generator outputting a synchronization signal to couple print engine/controllers to synchronize their respective composite strips at the printhead". The closest prior art such as Silverbrook et al. (US Patent No. 6,447,113 B1) discloses a plurality of the print engine/controllers (i.e., both of CCPs in fig.

Art Unit: 2624

30) linked by inter-CCP interface, each has a printhead interface to a separate printhead.

Therefore, the prior art of Silverbrook, including an updated electronic text search, fails to anticipate or render the above underlined limitations obvious.

As to claim 11, this claim is allowed by the same reasons from claim 6 and also by the reason: "a half-toner/compositer to composite any bi level image plane over any continuous tone image plane wherein the page data in the image planes is scaled under control of a margin unit to establish data for a strip of the image".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
